

Baseplate mounting area  
6" wide and overall height 10"

Mchine Top View  
13.50

Camera will view moving platten side

Molding machine Tie bar.  
both sides of the mold top and  
bottom

Notes:

1. Mounting braket should be no larger than 6"x10"
2. The current designed configuration will work however more support will be needed
3. Length of arms are defined in the print.
4. All joints should require a tool for locking them in position
5. The baseplate of the fixture will be perminately mounted suction will not work.
6. No safety requirements
7. Molding machine drawings are unavailable.
