I named my company "All for the Lord" at the inspiration of Paul Graumann, from Colorado, who named his construction business "Grateful Heart". I decided to name my company "All for the Lord" because that is what I am and that is what it does. I registered the domain AllfortheLord.com on 7/9/10 for \$15. I posted my portfolio online at AllfortheLord.com and opened my business on 1/11/11. All my public information, including Etoonin', is hosted at this URL. I don't

use any social media to promote my business other than my portfolio. I gain clients solely by personal networking. Since opening on 1/11/11 All for the Lord has spent \$1,040.²⁶ on expenses and earned \$1,086.³³. Upcoming projects include two major web sites estimated at a \$4,700 value. However, as business goes on I intend to market myself as a Print Graphic Designer. I have one business partner. If you know of anyone who needs Graphic Design please forward their info to me. Thanks!
