11.	Home	- -	Framingham	- - -	MA	-	6/09/16	-	310.0 mi	-	06hrs:30min	- -	-Average 47.69 mph

Thursday I drove 12 hrs to Virginia. Friday I drove 4 hrs to Durham, NC. With Kevin, we drank beers and ate malted milk balls. Saturday I went to Lake Day with Providence Church, Martin & Roger. Sunday I went to Church with Matt & Kim. Then I played mini-golf and had T-Bone steak cooked by Martin. We completed a 300 pc puzzle. Monday I had lunch and prayer with Kim, then drove 4 hrs to Charlottesville, VA. I visited my cousin Greg, and we also prayed. He's my most Christian cousin. Then I drove

to Jeremy's, and Tuesday we picked out cigars and bourbon. I had 7 hours to myself. At night we smoked cigars, talked and discussed theology: our favorite pastime. Wednesday I drove to Robin & Justin's for a very short visit. Then I drove to Liz & Rick's in Delaware. We saw a botanical garden and had dinner. I prayed for them and it touched their souls: the best part of the trip. I drove to a motel and visited Doc Z in Philly Thursday morning. Then I drove 6 hours home. The schedule was strict and I was tired, but it was so much fun!

**THE UNITED STATES OF AMERICA
GOD SHED HIS GRACE ON THEE**

The Saturday after my Southern Circuit Tour, June 11th, 2016, Chris and Ally got married. Chris was my housemate at F.H.O.P., the Christian community where I live. Both him and Ally are great people and it was wonderful to watch them wed and start their life together. Chris and Ally hosted a Bible Study at our home for about a year. They would always make a meal for the night, and never asked to split costs. They both are very emotionally and fiscally generous.

As a groomsman, I got home for the Rehearsal Dinner on Friday. The wedding was short, simple and Christ centered. Christians believe that marriage is an illustration of the relationship between Christ and His Church and that marriage is between three persons: husband, wife and God. A threefold cord is not easily broken. Chris and Ally's self written vows were amazing. Ally's Dad's toast, which touched on her loving heart, and their dance together was so touching.

Four days after my Seattle trip, Mon., 3/28/16, I started an Advanced CNC Skills Training course taught as a partnership between MassMEP and WPI. This intensive training class taught me how to use HAAS Mini-Mills and Lathes, MasterCAM, G & M Codes, Lean, OSHA and other things. Five weeks the class started at 6:00 AM, and I was never late! I graduated on Fri., May 20, 2016. This program hosted a job fair with 11 employers. That led to many interviews. On Wed., 5/25/16, I was hired by WestRock

(Job #37). WestRock manufactures cardboard boxes for large clients like Dominoes, Budweiser and Friendly's. I will be working to support the production machines which print, cut and fold the boxes. I work second shift, 3 - 11 PM. This position pays very well, and will enable me to get off SSDI (Disability) and support myself. I start Monday, June 13, 2016. It will be the first time since 2007 that I have held a full-time, career related job position. I am very excited and proud about this. Thanks for your prayers!
